LinkedIn: <https://www.linkedin.com/in/ericlarslee/>

Enthusiastic bootcamp grad looking to create a better world for my family and others I interact with each day. I strive to be the change I want to see in the world.

Skills & Traits

- Python (Django), C# (ASP.NET Core), JavaScript(React), REST APIs, HTML/CSS, MySQL, Git
 - Bilingual, dual citizen, active in community
-

Technical Projects

Calendar App / Python, Django REST API, JavaScript, React

- Responsive calendar application that allows users to track tasks/to-dos throughout their day along with right a summary of the day's events
- Entire application was built by myself; app incorporates three external APIs

GitHub: https://github.com/ericlarslee/calendar_app_api & <https://github.com/ericlarslee/calendarAppReact>

Trash Collector / Python, Django MVT, CSS/HTML

- Web app for a private waste management company that allows for employee and customer use
- App makes use of Google API that shows customers on map for employees on employee's page

GitHub: <https://github.com/ericlarslee/TrashCollector>

Education

devCodeCamp / Full-Stack Software Development Certificate, June 2021

Bemidji State University / Liberal Studies, B.A., May 2020

Experience

First National Bank of Bemidji / Night Computer Operator

Aug 2020 - Feb 2021, Bemidji, MN

Performed daily closing and processing checklist for bank, by building habits and paying attention to detail, quickly developed routines that enabled me to efficiently complete daily checklist.

CIATEJ / Summer Intern May 2017 - July 2017, Guadalajara, Jalisco, MX

Assisted Ph.D. student in sequencing bacteria DNA, by PCR. Also assisted Masters students in verifying reports usage of current terminology and prose.
